

Some catalogs in the ADCA Archives have problems of one sort or another (missing pages, excisions, stains, scribbles, etc.). Also, several of the catalogs in the archives exist only as photocopies, which is why some items on our online catalog order form are offered as scans of b/w photocopies.

We are in the process of trying to locate good copies of these "problem catalogs" in order to improve our digital inventory.

If you have a good copy of one of the catalogs on this list, we hope you will consider lending it to us to be scanned.

CATALOGS WITH PROBLEMS:

Adams & Westlake

[Railroad Hardware.]
